

SEVEN WERE KILLED IN A BAD SMASH-UP

PASSENGER TRAIN WRECKED IN KANSAS.

Burning Boiler Said to Have Been the Cause of the Accident—Passenger Commits Suicide in an Agony of Fear—The List of Victims.

Osage City, Kas., Oct. 5.—A frightful railroad wreck, attended by serious loss of life, and made more terrible by the self-murder of one of the passengers, occurred at 5 o'clock Sunday morning on the Santa Fe road, two miles north of this station. Seven bodies have been recovered from the wreck, and it is feared other victims are buried beneath the debris. The wrecked train was the eastbound passenger No. 2, the same that had a thrilling experience with bandits in New Mexico on Friday night last. The wreck was caused by the explosion of the boiler of the locomotive. The engineer should have stopped for water at Osage City, but, being behind time, he endeavored to run to the next tank. Though it is not positively known, the engineer and fireman having both met death in the wreck, it is surmised that their neglect was the cause of the disaster. The train had proceeded but two miles beyond Osage City, about to the Peterson coal chutes, when two terrific explosions were heard, one following close after the other.

The locomotive was completely shattered. The express, baggage and passenger cars came crashing upon the wrecked engine and the coaches that were ahead were piled up in one heap of wreckage. Those in the rear were all derailed, but the passengers riding in the rear escaped serious injury.

The wreck was marked by scenes of the wildest confusion among the terrified passengers. The nerves of many were at a high pitch as a result of their experience with the road-agents of New Mexico, and when the crash came the first impression of nearly every one was that the train had been attacked again by robbers. One passenger, William Beckler, of Los Angeles, en route to Chicago, lost his reason entirely. When the crash came he drew a single-barreled pistol from his pocket, and, in the presence of a car full of terrified passengers, took his own life, sending a bullet into his brain. Beckler had been drinking heavily. He was about 55 years of age.

Owing to the excitement and confusion, little could be done to rescue the injured and remove the dead bodies until the morning's sun appeared. Seven bodies were finally recovered. The dead are:

WILLIAM BECKLER, Los Angeles, Cal.

ENGINEER STRUMP, Topeka, Kas. FIREMAN HARRY HOLLISTER, Topeka.

WILLIAM M'ADAMS, tramp; riding on baggage car, and supposed to be from Chillicothe, Iowa.

THREE TRAMPS, names unknown, all of whom were riding on the baggage car.

Among the injured are:

Mrs. Emma Maxwell, an editor on the Evening Telegram at Colorado Springs, Col.; hands and arms cut and bruised.

Wilford Burns, tramp; legs and arms cut and bruised.

James Coleman, tramp; cut and badly bruised.

None of the express men or mail clerks were seriously injured.

Gov. Altgeld Talks to Endeavorers.

Springfield, Ill., Oct. 5.—The attendance at the tenth annual convention of the Illinois Christian Endeavor Union, which closed Sunday night, was probably the largest in the history of the association. At the morning services the pulpits of the city were occupied by ministers from a distance, and three very important meetings were held in the afternoon. Three grand consecration meetings were held at night: one at Representatives' Hall, addressed by Governor Altgeld, and the other meetings at the Second Presbyterian and Central Baptist churches. INDIAN BOYS DIE IN FIRE.

Spencer Academy Completely Destroyed by Flames.

Antlers, I. T., Oct. 5.—At 11 o'clock Saturday night Spencer academy, located ten miles west of Antlers, burned to ashes, together with all furniture. Four Choctaw boys were burned up.

The origin of the fire is supposed to be incendiary, as no one was occupying the room in which the fire broke out, and there had been no fire in it this season. Superintendent J. B. Jeter, who is in charge of the school, heard the flames, awakened all the boys and barely saved his own life. The boys threw their beds out of the windows and jumped to the ground on them. One of the boys who was burned to death was a cripple and the other three were in rooms where there were no windows. It is said their moans and groans were heart-sickening in the extreme.

The academy was built by the Choctaw nation and 102 boys were there when it burned. Everything is a total loss, as the nation did not carry any insurance.

Supreme Court to Sit Soon.

Washington, Oct. 5.—After a four-months' recess the United States supreme court will reconvene on Monday, October 12, for the October term. It is presumed that on Monday, October 19, some of the cases which have already been submitted will be decided. There is especial interest in the two irrigation cases from California, involving the constitutionality of the Wright irrigation law. Other cases of general importance which have reached this stage of progress are the freight elevator case from Nebraska, the case involving the title to the site of the city of Santa Fe, N. M., and the Laclede Gas company case from St. Louis.

Laurada Sails for Philadelphia.

Superior, Wis., Oct. 5.—Attorney General Milrea was in Superior Sunday. He stated that the Superior board of trade had not as yet officially communicated with him, and he had, therefore, taken no steps to look up the constitutionality of the Wisconsin warehouse statute. He considered its provisions very plain, however, and was of the opinion the Superior board could rely on the police powers of the state to enforce its contentions—that is, arrest Minnesota wheat inspectors as soon as they begin to do business in Wisconsin waters.

London, Oct. 5.—The Daily Mail asserts that the nihilists have held several excited meetings in London in recent days. PEOPLE STILL HUNTING UP M'KINLEY BRYAN IS STILL HUNTING UP PEOPLE

THOUSANDS OF VISITORS AT DEMOCRATIC NOMINEE SPEAKS AT ST. LOUIS.

Addresses of Sixteen Delegations Responded to By the Republican Leader Saturday—The Greatest Enthusiasm Manifested By the Crowds—General News For Republicans.

Canton, Ohio, Oct. 5.—Saturday was the most notable day for delegates yet seen here. In the enormous crowds present twelve states were represented by delegations ranging from small clubs of wheelmen to many trainloads of citizens.

The demonstration began early and continued until late. Major McKinley addressed sixteen audiences. The reviewing stand from which he is accustomed to review parades and street demonstrations was re-erected on the front of the lawn and used for the speaking the greater part of the day.

One of the features of the day was the parade and demonstration of the wheelmen, under the auspices of the National Wheelmen's McKinley and Hobart club. The number of wheelmen was estimated at 3,000. Four or five hundred of them came from Chicago. Cleveland's large party, Buffalo sent 150, Pittsburgh a big delegation, and Louisville and Cincinnati each sent a club. The addresses on behalf of the wheelmen were made by R. P. Walker, president, of Chicago; W. P. Williams, vice-president, and W. W. Watts of the executive committee. Major McKinley responded.

Delegations from Harrisburg and Dauphin county, Pa., arrived before the city was astray. A second delegation arrived from Athens, Ohio, at 7:15 a. m. William J. George was spokesman for the Pennsylvania and J. M. Allen for the Ohio delegation.

A Venango county (Pa.) delegation and the students of Wooster university constituted one of the crowds addressed by Major McKinley. Colonel S. C. Lewis spoke on behalf of Venango county in general, Thomas McGough on behalf of the oil interests of the county, and Robert A. Crawford on behalf of the students.

The Union Veteran Patriotic league and the Allegheny County War Veterans' club, with many battle-flags, held possession of the lawn for a brief time, while resolutions of indorsement of McKinley and the republican platform were read and addresses were delivered by Charles F. McKenna and William T. Bradbury.

An enthusiastic body of young men followed the banner of the Stamina club of Cincinnati. A speech was made by C. C. Benedict, president of the club.

A committee representing New York silvermiths presented Major McKinley a gold loving cup in a royal purple plush case, the presentation being made by George Dessauer. The cup was inscribed: "In Silver We Believe When Redeemable in Gold."

A delegation of Bohemians and Slavonians of Cleveland were presented by T. J. Slach and J. W. Sykora.

Toward the close of the day the delegations came so fast Major McKinley could not give each a separate welcome.

Immease Crowd Throgs the Auditorium Where He Delivered His Speech—Populist Nomination Accepted—First Meeting of the Democratic Clubs—Popocratic News.

St. Louis, Oct. 5.—An immense audience greeted Mr. Bryan at the Auditorium Saturday evening. Before the afternoon session of the democratic clubs had completed its work, people began to assemble, and crowd in at the doors, requiring the utmost efforts of the sergeant-at-arms and his assistants, together with a squad of police, to keep the crowd within bounds. By 7 o'clock the auditorium was packed to suffocation. It was 8:20 p. m. when Senator Money, permanent chairman, called the convention to order.

When Mr. Bryan appeared he was greeted with a storm of cheers. It was fifteen minutes before he could begin to speak.

Mr. Bryan's trip from Cincinnati to St. Louis was an ovation. His train stopped to give him an opportunity to make speeches at Lawrenceburg, Ind., Augusta, Ind., Osgood, Ind., North Vernon, Ind., Mitchell, Ind., Lagotee, Ind., non, Ind., Mitchell, Ind., Lagotee, Ind., Lawrenceville, Ill., Olney, Ill., and at East St. Louis. Large crowds cheered the democratic candidate at every place.

BRYAN TO THE POPULISTS.

Accepts Their Nomination for President of the United States.

St. Louis, Oct. 5.—On his arrival here Candidate William J. Bryan gave out for publication his letter of acceptance of the populist nomination for president. It says in part:

"I fully appreciate the breadth of patriotism which has actuated the members of the people's party, who, in order to consolidate the sentiment in favor of bimetalism, have been willing to go outside of party lines and support as their candidate one already nominated by the democratic party and also by the silver party. By persistently pointing out the disastrous effects of a gold standard and protesting against each successive step toward financial bondage the populists have exerted an important influence in awakening the public to a realization of the nation's present peril.

"While difficulties always arise in the settlement of the details of any plan of co-operation between distinct political organizations, I am sure that the advocates of bimetalism are so intensely in earnest that they will be able to devise some means by which the free silver vote may be concentrated upon one electoral ticket in each state. To secure this result, charity toward the opinions of others and liberality on the part of all is necessary, but honest and sincere friends who are working toward a common result always find it possible to agree upon just and equitable terms."

DEMOCRATIC CLUBS.

St. Louis Crowded with Delegates to the Convention.

St. Louis, Mo., Oct. 5.—Saturday was the opening day of the convention of the national association of democratic clubs. The delegates began to arrive yesterday, and they have been pouring in on every road that comes into the city since that time. All morning they gathered in the lobbies of the hotels, where the curbstone orators shouted and roared with enthusiastic energy explaining the money question and "the true significance of 16 to 1."

It was about 10:30 o'clock in the forenoon when the delegates and visitors began to assemble at the Auditorium, where the convention was held, and it was almost an hour later when President C. F. Black called the meeting to order. At least 2,500 delegates were present and the vast hall was well filled with visitors. When the blessing of the deity had been invoked the Jefferson glee club of several hundred voices sang the national anthem, "America," in which the audience joined.

When the applause following the singing of the anthem had died away, President Black delivered his quadrennial address.

Mr. Black was frequently interrupted by applause. When he had finished he introduced Vice-President Stevenson, who delivered an address in which he discussed the tariff question at length. Stating that "the financial question overshadows all others in the present contest," he concluded with a long argument for free silver.

SUFFERERS CALL FOR FOOD.

Full Extent of the Cedar Keys Storm Slowly Becoming Known.

Bronson, Fla., Oct. 5, by courier from Cedar Keys, Oct. 3.—The full effects of the storm are just becoming known. Telegraph wires have been down, railway communication has been broken and the country wagon roads and trails have been impassable by reason of fallen timber. Every hour has brought fresh news of the disaster. Men have cut their way through the forests to tell the stories of suffering and to seek assistance for the injured and starving. "Send us food; we are starving," is the cry that comes from Flatland, Judson, Clay Landing, Manatee Springs and other towns along the Suwanee river. The calls from these places are heard because they are in a sense on a line of communication. The fate of those unfortunates who live in the recesses of Alachua, Suwanee, Columbia, Baker and Lafayette counties, in sections where the worst of death and destruction fell, can only be conjectured.

The loss of life in the interior cannot be now even estimated. Reports from towns with which communication has been opened show the known dead to exceed 125 in number. But these are the reports of considerable villages on or near established lines of travel; the result in remote places can only be feared. The seriously injured number twice as many as the dead. It is likely that \$10,000,000 will not cover the direct and indirect loss.

OUSTS BISHOP KEANE.

Pope Removes Him as Rector of the Catholic University.

Washington, Oct. 5.—Immediately following the arrival at Washington of Archbishop Martinelli, the new apostolic delegate, the announcement is made that Bishop Keane is deposed by the pope as rector of the Catholic university, one of the greatest educational institutions under the management of the church.

It is generally assumed by Roman Catholics that the removal of Bishop Keane is the first of a series of important changes in church management to be made by Archbishop Martinelli. This, however, is denied by Bishop Keane himself and by Dr. Rooker. It is pointed out that the new delegate did not bring the letter deposing Bishop Keane and did not know that a change had been determined upon by the pope until his arrival in Washington.

The man-of-war Dupuy de Lome conveyed M. Faure, the president of the republic, to the meeting point of the czar's yacht and the French squadron. IS THE LOWEST MAN HIGHER THAN WOMAN

REV. V. E. SOUTHWORTH TALKS
OF HER RIGHTS.

Is Generally Consulted and Her Opin-
ions Always Carry Weight, Except
At Election Time—Then Any Man
Who Can Keep Out of Prison Is
Her Superior.

Is woman more than an annex to
man?

Is she an independent individual
with a life of her own the same as man?
Or is she created to be politically
subordinate to men; even to the most
ignorant and corrupt men?

This was the question of the day at
All Souls, the People's church, yester-
day Mr. Southworth said among other
things:

We talk about "equal rights to all
and special privileges to none." We
say we must have "a government of
the people, by the people and for the
people." What do we mean by such
language? Surely we do not mean
what we say.

There is no government of the peo-
ple, by the people and for the people,
in America today. The principle of self-
government is not universally admin-
istered. The men folks have managed
it so that the women folks are not in
it. Our democracy is not a real democ-
racy, but a masculine democracy. It
is not the government of the people by
themselves. It is the government of
the men folks. The women folks are
a side issue; an annex; an indispens-
able, but strictly subordinate adjunct
to the government. The great funda-
mental principles of justice, equal-
ity, and liberty as embod-
ied today in our American
institutions are not applicable to
women at all, not to the best and
wisest woman in the land even. They
are applicable to men only even to the
meanest and most ignorant man who
has just managed so as to keep out of
States' prison.

We enshrine liberty. And then
turn our backs against mother, wife,
sisters, daughters, as we strut away
to the polling booth or primaries to
see to it that a government of the
men folks, by the men folks and for
the men folks shall not perish from
the land. We oppose class distinctions
and in our every action endorse and
support the most unjustifiable class
distinction known under heaven.

"Free" to Men Only.

We advocate free speech and free
thought for all the people as a bless-
ing of nature given to all alike; but
only the men can sum up their free
and independent opinion in a ballot
and make it directly efficient and pro-
ductive of results.

The fact is, so far as our American
institutions are concerned, as Helen
Gardener says, "man is the human
race and woman is simply one of the
prerequisites, incidentally thrown in."
When we have a real democracy
founded on justice and radiating
liberty; it will be as fortunate to be
born a woman as it is now to be born
a man. So far as power to rule
one's own life and to help in deter-
mining the common policies of the
country are concerned, a woman's wisdom
and a woman's will will weigh as
heavy and count for as much as a
man's.

Today it is not so. Any man, mere-
ly because he is "man" is counted
capable to assist in the determination
of our national activities, while every
woman, merely because she is "wo-
man," is counted incapable. Such a
discrimination, such a measuring of
capacity and incapacity, bespeaks for
man the pity of the brute.

Nowhere else on earth, and in no
other matters, is the opinion of wo-
man treated with such utter contempt
as at the polls in this boasted "land
of the free and home of the brave,"
when matters which affect us all for
weal or woe, are up for settlement.
There is the only place where the
opinion of woman is utterly ignored.

We welcome the judgment and
counsel of our mothers and wives at
all other times. Welcome them in a
way, at least. Give them a hearing,
at least.

Barred Only in Politics

Bring together in any drawing
room a promiscuous company of men
and women. Let some weighty prob-
lem arise for discussion, and who
thinks it a wonder when women give
expression to what they think as
freely as men? Their opinions at
such times are not "thrown out" and
treated as of no account.

Only in the special field of politics,
only when questions of state are to
be adjusted. Only in the one place
where each and every opinion can be
deliberately deposited so as to be di-
rectly effective for good or ill to the
whole people, only there, does it seem
to have dawned upon men that the
opinions of their mothers and wives
were to be entirely disregarded, and fit
only to be classed with the senseless
chatter of children, the wild ravings
of the insane, and the lawless plot-
tings of criminals.

We will take our mother's word for
it, or our wife's word for it, we will
trust their judgment in every other
matter at any other time, but at the
polls—never! At the polls we prefer
the opinion of any man no matter how
ignorant, to the opinion of any woman,
no matter how wise.

Ballot Is All Powerful.

We look for the salvation of our
nation's integrity to the ballot box.
The entire destiny of the nation is de-
termined by the ballots of the voters
deposited at the polls. The election
day is of a life more vital and most
fatal. The decisions rendered then
fix for a term of years the advance or

the decline of our progress as a peo-
ple. No other act in our life together
as a nation is so far-reaching. No
other act calls for soberer judgment,
truer instinct, wider sympathy or
more moral fortitude.

But this momentous task we entrust
only to the men—to any of the men.
to all the men. Why? I never could
learn the reason why. I never could
find out why it was that my mother
and my wife were to be consulted at
all other times; were to be treated
with respect and consideration at all
other times; but on election day were
to be catalogued, politically, with the
immature, the idiotic, the insane, and
the criminal.

Competent to be mothers of citizens;
competent to be sisters and teachers
and wives of citizens; but there it
ends. To be a citizen herself, she is
counted as incompetent by the very
men to whom she has been so patient a
mother, so faithful a wife, so generous
and helpful a sister, friend and
teacher.

Against this political exaltation of
any man above every woman, against
this political degradation of any wo-
man beneath every man, I enter my
everlasting protest.

THE RECORDER'S FINANCIAL BELIEF BEFORE IT "TURNED ITS COAT."

SAID FREE COINAGE A SCHEME FOR ENRICHING A FEW MINE
OWNERS.

As a Means of Abolishing the Differences Between the Poor and the Rich, It Is
a Monumental Fraud. They Claimed—It Would, They Then Believed—
Make the Rich Richer and the Poor Poorer as Prices Would Be Doubled,
But the Value of the Goods Would Not Be Increased—Is a Shallow
Pretense.

The shallowness of The Recorder's
political policy in supporting free
silver is shown by the following ring-
ing denunciation of the "monumental
fraud free coinage," which was
printed at the head of the editorial
column on June 24, 1896.

The clipping is furnished The
Gazette, by the Railway Men's Sound
Money club of Jamesville, Wis., with
the request that it be published.

On June 24, 1896, The Recorder
believed in honest money, and the
gold standard. No paper could cen-
sure the free silver heresy in more
unmeasured terms.

Now the paper is equally vehement
in supporting free silver.

Why?
The article printed on June 24 is as
follows:

FREE SILVER.
Would Not Remedy the Unequal Distribu-
tion of Wealth.

It is because of the belief that in
some way free coinage would give the
poorer classes some of the wealth now
in the hands of the rich, that the
farmers and workers in some sections
of the country have favored the 16 to
1 scheme.

The shallowness of the pretense
that the silver standard would help
the poor as against the rich, can be
seen by considering the results
which its advocates claim would
follow its adoption. They in-
sist that by measuring value in dol-
lars worth half of a gold dollar the
value of all the wealth in the country
would be exactly doubled. This is

church yesterday morning, from the
text, Gal. 3:2, "Receive ye the spirit
by the works of the law, or by the
bearing of faith?"

Rev. K. Burnell spoke to the Sun-
day school workers at the evening
service. His text was acts 5:42,
"And daily in the temple, and in every
house they ceased not to teach and
preach Jesus Christ." The speaker
held the close attention of his audi-
ence, while he told of the work of
house to house visitation, in which he
is engaged. He strongly advocated
daily prayer.

The secretary's report showed an
average attendance of two hundred in
the Sunday school during the past
quarter.

The young people will meet in the
church parlors this evening at 7:45 to
talk over the Christian Culture Courses
and organize a class for study during
the winter.

A series of evangelistic meetings will
be held in the church, beginning Oct.
12. Dr. Hodge will be assisted by
Miss M. E. Stroud-Smith, an evangel-
ist who has been successfully laboring
in California, and also in this state.
An invitation is extended to all.

The Women's Missionary society
will meet in the church parlors Friday
afternoon at 3 o'clock.

Wednesday, Oct. 6 and 7.

ONE advantage the Cole's air tight heater has over other stoves, any woman can handle it, in the spring or fall the stove must necessarily be moved somewhat, anybody can easily lift this stove. Argument For Serious Thought.

If you are a person with business experience, either man or woman, you will realize that the step we have taken in adopting this strictly cash system of doing business is one that certainly will help the purchaser as well as ourselves. You know that the charging of goods becomes a matter of habit with many people, and that the best of us are irritated and even surprised at the amount on the presentation of a bill for dry goods whenever it may be. You know that for many reasons we can afford to sell dry goods at a smaller margin when we are dead certain of receiving the cash for them when they are purchased. There are a great many people today who never buy a thing without paying cash for everything, and those people we will save money for; and we think with the saving of money for these people, other buyers will be just as anxious to come with their cash and procure more for it than the credit way of doing business can possibly offer. MODERN LINEN CLOSET.

It Should Be Particularly Neat and Always in Order.

Every housewife knows the comfort of having a cupboard set aside for the sole use of the house linen. It should be her pride to see that everything contained in this cupboard is neatly arranged on the shelves, and where, at any moment, she will be able to lay her hands on any separate article. To attain this she must herself arrange the linen on the shelves, and must not allow any one else, who is likely to disarrange it, to go to the cupboard. Let me, then, show you which is the best method of arranging the linen cupboard. I will take an imaginary cupboard, which has four shelves. On the first shelf should be placed all the bed linen, sheets, pillow cases, etc., in different piles. On the second shelf all the bed furniture, curtains, etc.; on the third shelf all the table linen, together with any toilet mats, doilies, etc., and lastly, on the fourth shelf should be placed towels, kitchen linen, and the various odds and ends which are a necessary adjunct to make up a complete set of house linen. Like all cupboards, the linen chest requires frequent overhauling, for the tiresome serviettes, tea cloths, etc., will wear out and want replenishing. In most cases it is a wise plan to replace each article as it wears, and in this way you will always have the full set of linen and will not suddenly find that you have not sufficient table napkins to go round.

Two Wise Geese and the Pigs.

A gentleman living in eastern Georgia owned a pair of geese and some half-grown pigs, both of which resorted to a small plum thicket on the hillside to pick up the fallen fruit. A small branch of one of the trees was broken and bent down to the ground and the geese had somehow discovered that by catching the end of the branch in their bills and shaking the tree by means of it they could bring down the plums. The pigs, seeing what was going on, soon found it to their interest to follow the geese to the plum thicket. The geese would shake the tree and the sound of the shower of fruit would be heard, and before they could eat the plums the pigs would have greedily gathered up most of them. Greatly exasperated, and with good reason, one of the geese would seize a pig by the ear, while the other marched on the other side of him, screaming and scolding. In this way, beating poor piggy with their wings at every step, they would escort him to the top of the hill and there let him go.

Then they would return and shake the tree again, with a similar result.

The Labyrinth of Egypt.

The most ancient labyrinth, according to Pliny, was that called the "labyrinth of Egypt." It was existing in his time after having stood for 3,600 years. He tells us that it was formed by Petesius or Tithoes, Herodotus, however, ascribes it to several kings. It stood on the banks of Lake Moes and consisted of twelve large contiguous palaces, containing 3,000 chambers, 1,500 of which were underground.

Eight-Fifteen.

On a recent Sunday evening in Belfast, Me., a young man in church looked frequently at his watch during the sermon. Just as he was doing so for the fourth or fifth time the pastor with great earnestness, was urging the truth upon the conscience of his hearers. "Young man," said he, "how is it with you?" Whereupon the young man with the gold repeater bawled out, in the hearing of nearly the whole congregation, "A quarter past eight." As may be supposed, the gravity of the assembly was very much disturbed by the occurrence.—New York Tribune.

THIS DAY IN HISTORY.

1218—Edward Bruce, brother of King Robert of Scotland, was killed at Fagher, Ireland.
1708—Jonathan Edwards, famous Calvinistic divine, was born at Windsor, Conn.

1813—General William H. Harrison defeated the British and Indians at the Thames, Ontario; the noted chief Tecumseh was killed.
1838—Burning of the Crystal palace in New York; loss, \$1,135,000.
1892—Alfred Tennyson, Baron d'Eyncourt, laureate of England, died; born 1809.

1895—Professor Henry Maurice Willkorn, distinguished German botanist, died.

CORNWALLIS.

The Denver preacher who said that the carrying of Missouri miners to Leadville was likely to prove "a dangerous change of climate at this time of year" was trying to incite a riot, and should his murderous suggestion be followed might properly be arrested as an accessory before the act.

It was sometime ago denied that "Silver Dick Bland" and the "boy orator" had parted in madness, but we notice that "Silver Dick" is continuing his campaign efforts to trying to get himself back in congress.

When Eugene Debs said the workman distrusted the so called labor leaders, himself included, he told the plain truth; and he might have added that the workmen thereby showed their intelligence.

As many of the Germans now in the United States left "der faderland" by reason of persecution from the government headed by Bismarck, they are not likely to look to him for political guidance.

The late Henry Ward Beecher stated a great truth when he said: "Whoever tampers with established standards, tampers with the very marrow and vitality of public faith."

There is no middle ground in this campaign. You must either vote with the party that wants to smash up things or the party that wants to build up things.

Bryan might as well throw up the sponge, now that James B. Weaver, the old-time political boodoo, has declared his election to be certain.

It Works well.

There are very few people who would not save a small amount of money in the purchase of dry goods were the opportunity laid before them. That is just what we are doing in this cash system we have adopted. We have placed before the people an opportunity such as they cannot help appreciating the more they become acquainted with it. Every piece of dry goods is reduced in price. A pretty broad assertion that, and one that can only be proven by your asking about prices and goods at our store. The system has only been in vogue a short time, but even the few days of its trial it has shown its worth to our entire satisfaction. The cash system is absolutely a saving of money for the purchaser, and it is an incentive for us to work on which means much to the public. Bort, Bailey & Co.

GOSSIP FOR JANESVILLE FOLK

To make home happy use "Garland" stoves and ranges for sale by Lowell Hardware Co.

Miss BELLINGHAUSEN's millinery opening Wednesday of this week, will be of particular interest to the ladies this season. She will show a great many pattern hats and bonnets that are positively beautiful.

ARCHIE REID & Co. sell more cloaks than any concern in southern Wisconsin, and the low prices which they tack onto a garment makes their store a favorite stopping place for people from out of town as well as a big majority of the residents of the Bower City.

If you need a heating stove why not buy one with a reputation? The genuine Beckwith Round Oak exceeds in sales those of any six of its imitators, added together. There is no question about it. It is the best. See the name on the leg. Lowell Hardware Co.

Cloaks at 25c.

Sale Begins Oct. 6, Tuesday, Lasts 5 Days.

Many women who have children to dress, may be puzzled to know how they are going to get new Cloaks for them this winter. There's Mary, her last winter's Cloak has air holes at the elbows and looks very shabby. And Lizzie's Cloak is much too small for her now. Mother sighs, and thinks about all the things required to take the family through the long winter, thinks about the small allowance they have to live on, and thinks and thinks.

The Scene Brightens...

We are going to have a sale of chesnut Cloaks. We do not hold these garments up as being the latest styles; we do claim, but you'll discover it quick enough, that they are warm, heavy Cloaks, and will put prices so low that it will pay to buy them to make over. They won't all be made over. Many women will be glad to get them to wear just as they are. We will arrange them on our second floor and have them all marked in plain figures. Some of them were bought in 1893, some in 1894, and many of the best of them in 1895, only last winter.

50 will go at 25c.
75 will go at 50c.
100 will go at \$1.00.

MRS. MAX PFENNIG CALLED BY DEATH

DEMISE OCCURED AT HER HOME
TODAY.

Trip to Europe to Have a Surgical Operation Performed Was Fruitless—Death of Miss Fannie Warren—Joseph Baum Is No More—Funeral of Emanuel Paul.

Mrs. Wilhelmina Pfennig, wife of Max Pfennig, died at her home on North Bluff street, at 11 o'clock this morning, aged forty-seven years.

Mrs. Pfennig had been afflicted with a cancer for some time, which was the cause of her death.

Mrs. Pfennig was born on April 10, 1849, and had resided in Rock county for about twenty-five years. In April, 1895, Mr. Pfennig took her to Germany to have an operation performed in hopes of curing the cancer. The operation was performed by one of the most skilled surgeons in that country; but it did not result in permanent benefit, and the cancer continued to sap Mrs. Pfennig's life in spite of all that could be done. For about five months she had been quite ill, and her death, while not entirely unexpected, was a great shock to the family. Reside the husband, she leaves two children, a son, William, and a daughter Miss Irmgard. To them tender sympathy will be accorded. The funeral arrangements have not yet been completed.

Miss Fannie Warren.

Fannie Warren, one of Janesville's best beloved young women, passed to her final rest at an early hour Sunday morning, Oct. 4, after many weeks of patient suffering.

Few words need be said in eulogy of such a character. Beloved by all who knew her, her cheerfulness, kindness and gentleness will live in their memory. It requires great faith to say "Thy will be done," when such a life goes out in the very morning of usefulness with such a promise for the future.

But death does not end all to those who believe in "The resurrection of the body and the life everlasting." Fannie Warren lived and died in this faith and when we contemplate the shortness of this earthly existence whether it ends in the morning or the evening and compare it with the life everlasting it is vastly easier for the bereaved ones to say in humble subjection "Thy will be done."

In the hour of their great sorrow, when the soul is bowed down in grief such as only death can bring, the stricken ones, however, can but still remember the many acts of kindness of their friends, both in Janesville and at Wichita, Kansas, where Miss Warren spent many days previous to her removal to Janesville.

The funeral will be held from the home at 2 o'clock tomorrow afternoon.

Joseph Baum.

After a lingering illness of several days' duration Joseph Baum, an old and respected resident of Janesville, died at 5 o'clock yesterday afternoon, of heart and lung trouble and dropsy. Mr. Baum was seventy-three years old, and at the time of his death resided at 328 South Main street. Besides a wife he leaves a daughter and three sons—Mrs. Belle Pardee, Adam, Robert and William Baum, all of this city. Funeral services will be held from the residence tomorrow at 9:30 a. m., the interment to be made at Edgerton.

Funeral of Emanuel Paul.

The funeral of the late Emanuel Paul was held from the family residence on Eastern avenue Sunday afternoon at 2 o'clock. Rev. Dr. M. G. Hodge, of the Baptist church officiated and the interment was in Oak Hill cemetery. The pall bearers were Charles B. Conrad, B. F. Dunwiddie, Capt. Pliny Norcross, William Ruger, Archie Reid and C. S. Jackman.

THERE was a time when Janesville democrats dared to hold ward caucuses, but that day is past. They have to hold "mass caucuses" nowadays, so that the ringleaders can do the whole business. The rank and file are not in line this year, but nine-tenths of them will vote for McKinley instead.

WHEN you read a silver editorial in the Flip-Flop, just remember that the gold editorial re-published in this paper tonight, was the one they printed when they were "heart whole and fancy free." They were for gold then, but something has since happened that caused them to espouse the silver cause.

A JANEVILLE young man whose heart's idol has gone away to school this fall, made his first letter so heavy with poetry and protestations that it cost its recipient six cents excess postage to get it out of the office. Her slighting remark to the effect that "no love letter ever written was worth six cents in such bad times," came very near breaking the bonds of affection.

NO VOTES ARE MADE • BY HIS ADDRESS

THEO. GESTEFELDS' WEAK
SPEECH IN GERMAN.

He Did Not Get Up to the Present Time At All, and the Speech Fell Flat—No German to Introduce Him In the Afternoon—Big R publican Rally at Cooksville

The "mass meeting of Janesville Germans" arranged by the popocratic committee was not much of a success.

Saturday evening there was an audience of 150 in Concordia hall when the speaker, Theodore Gestefeld, began his remarks. A very fair cheer can be raised by 150 men but not once was Mr. Gestefeld's two-hour speech punctuated by even a burst of hand-clapping. His audience listened in cheerless and clammy silence.

Even the closing appeal of the speaker for "three cheers for Bryan and the rest of the ticket" drew no response although the tact with which it avoided the vice presidential muddle should have received better treatment.

The audience did show a quiver of interest once.

It murmured its disapproval when young Mr. Gestefeld criticised the quality of P. J. Bismarck's German.

Bismarck's suggestion of gold for Germany and silver for the United States found scant favor with the audience but there seemed to be a feeling that Mr. Gestefeld was hardly large enough around the hat band to give the ex-chancellor lessons in German composition.

The small attendance Saturday night satisfied the popocratic managers that they had chosen a bad time. Sunday afternoon would be better they thought, so a Sunday afternoon meeting was announced.

Instead of 150 people as on Saturday night, however, they had but fifty-three and no German could be found there who was willing to introduce the speaker. Mr. Gestefeld was introduced to his German audience in English, therefore, by C. C. McLean, of the democratic city committee.

"Gestefeld produced no effect whatever," said H. W. Frick, of the Janesville Journal. "He did not make a vote. He never got down to the present day in his discussion of the currency, and he stated the issues of two hundred years ago so lamely that he wearied his listeners. He admitted very frankly that he was with the republicans on everything but silver. If the campaign committee knew their business they will take Mr. Gestefeld off the road."

BIG REPUBLICAN RALLY HELD.

Enthusiastic Meeting at Cooksville Saturday Night—Big Crowd Present.

A republican rally where the attendance was so great that the hall was filled to the very doors, was held in Cooksville Saturday evening. Clerk of the Court T. W. Goldin, and Hon. John M. Whitehead, of this city, were the speakers, and old-time republicans say that Cooksville has never seen a larger crowd at a political meeting, and all were enthusiastic for protection and the preservation of the present monetary system.

HIS ARM TORN OFF BY THE MACHINE

MILO WOOD FEARFULLY HURT
AT CHICAGO.

Former Superintendent in the Upper Cotton Mill Now in the Cook County Hospital—Chances Favorable For Recovery—John Sharp Nearly Chops His Foot Off.

Milo Wood, formerly overseer of the card room in the upper cotton mill, had his arm taken off at the elbow, at Chicago. He was called to inspect a picking machine, when his coat sleeve was caught and before help could be called, his left arm was taken off. He was at once taken to the Cook county hospital and his arm dressed. Word received Sunday said he was getting along nicely.

Mr. Wood had recently completed a handsome dwelling on South Hickory street and left Janesville but two months ago, while his wife and children left to join him a week ago last Friday. Mrs. Jennie Field, who resides at 159 North Bluff street, is a sister of the injured man. She has received a letter from Chicago saying that Mr. Wood is resting as comfortably as can be expected.

A telegram arrived in the city this morning asking for a physician to come at once to the Eddy farm two miles below Afton.

Sharp, while in the act of chopping caught the head of the ax in the hanging limb of a tree, deflecting the blow in such a way as to cut his foot.

It took twenty stitches to close the wound. Present indications are that the foot will be saved.

Inspiring Thought.

"The spectacle afforded by this country once every four years," the man in the mackintosh was saying, "when we pass through what might be called a bloodless revolution, and the republic, though shaken apparently by its very foundations, comes safely through the convulsion and is all the stronger for the trial, is one that ought to inspire every citizen with renewed confidence in the perpetuity of American institutions and fill him with pride. Besides," he added, in a burst of patriotic fervor, "when there's a campaign on you can always borrow money—in sums of a dollar or two!"—Chicago Tribune.

Good Chance to Get Even.

Fair Shopper (to assistant, who has shown her every piece of goods in stock)—Well, I don't see anything here that suits me. I'll go down to Yard & Stuff's and see what they have.

Fair Shopper (pleasantly)—Ah! a friend of yours, I suppose?

Salesman—No, my greatest enemy.—Tit-Bits.

You may have delayed the purchase of the much needed stove, but surely if you are going to get one this year you want one right away. Let us suggest to you

A Garland,
A Peninsular, or

All of them are the best made. More Garlands in use in the city than any other make; they do the work in the cold weather and have points no other stove contains. A business man here in town bought a large size Radiant Home of us the other day and said he wouldn't use any other make when he could buy the Radiant Home---it heated better and burned less fuel than other stoves. 'Tis a fact that all three stoves handled by us are best and most economical.

It's remarkable the amount of working men's Shoes, Jackets, Pants, Shirts, Hose, Overalls and Underwear we sell, all because the qualities are best and the prices lowest at the big cash store.

PASTORS ARE ANXIOUS.

Appointments by the Rock River Conference in Abeyance.

Freeport, Ill., Oct. 5.—The ministers attending the Rock River conference were busy Sunday, and much wire-pulling was done. The matter of real interest to the preachers is yet to be decided. While it is supposed that the majority of the pastors will be returned to their old charges, not an appointment has been made definitely. The list will be given out tonight if the work of the conference ends then, which does not now seem likely, as much remains to be done.

The services Sunday were sermons by members of the conference in all the evangelical churches. Bishop Andrews occupied the Embury church pulpit at the morning services.

At Saturday's session a ballot was taken upon the constitutional question of admitting women to the general conference. It resulted in a total vote of 222—yeas, 162; nays, 60. This was the third time that the question had been submitted to a vote in this conference, and the negative vote was larger than on either of the previous occasions. The proposition for equal lay and clerical representation in the general conference was next voted on and lost by a vote of 113 yeas to 102 nays.

Un-American Names

There is room for a little healthy Americanism in the naming of New York hotels. The Victoria and the Brunswick have lately been closed. We have the Empire and an Imperial, but no Republic. We have the Windsor and St. James, but no White House, Monticello, Montpelier or Washington. There are Mt. Vernons in many cities, but they are generally of an inferior class. We have a Marie Antoinette, but no Martha Washington. We have a Holland House and Savoy, Vendome and Normandie, and St. Cloud and Grenoble. In other American cities there are a few American, United States and Congress houses, but most of them were named a great many years ago, and Washington houses are generally of the third class. Are travelers so un-American that hotels must have foreign names to attract them?—Pittsburgh Bulletin.

Choctaws in an Ugly Mood.

Perry, O. T., Oct. 5.—Excitement rules at Tuskahoma. Today the Choctaw council meets and the recently elected governor, Green McCurtain, will take the oath of office if not prevented. Indians who supported Jacob Jackson for governor have come out against seating McCurtain, who was the candidate of the liberals. Indian Agent Wilson has been called on and every policeman in his command has been sent to the scene, with two companies of United States cavalry from Fort Gibson.
